DISEASES OF THE BILIARY TRACT

15  Introduction to a New Series
    by Rad M. Agrawal

DISEASES OF THE BILIARY TRACT, SERIES #1

16  Biliary Pancreatitis in Pregnancy
    by Vishal Jain, Balaji Yegneswaran, C.S. Pitchumoni
    The spectrum of biliary disorders in pregnancy range from asymptomatic
gallstone disease to serious necrotizing pancreatitis. The aim of this
article is to present an update on gallstone disease and biliary pancreatitis
in pregnancy.

INFLAMMATORY BOWEL DISEASE, SERIES #50

33  Human Growth Hormone in Inflammatory Bowel Disease: Rationale, Evidence and Concerns
    by Marc Kaneshiro, Gil Y. Melmed
    It is important that physicians and other health care professionals are
aware of the specific indications for growth hormone and its potential
for adverse effects. This article summarizes the rationale, evidence and
side effect profile for human growth hormone use in IBD.
Enteral Feeding: Should It Be Continued in the Patient with *Clostridium Difficile* Enterocolitis?

by Mark H. DeLegge, Amy Berry

The authors ask, “What evidence is there to support withholding of enteral feeding in the patient with *C. diff*?”

They answer, “For now, there is no good physiologic reason that EN should be withheld in patients with active *C. diff* enterocolitis without clinical signs indicating that the clinician should do it.”

The Coexistence of Crohn’s Disease and Takayasu Arteritis: Diagnosis and Treatment of Combined Disease in Three Patients

by Joel R. Judah, Chris J. Hammond, Steven F. Polyak, Walter E. Drane, John F. Valentine

A report on three patients with coexisting Crohn’s Disease and Takayasu Arteritis. All three patients were treated with infliximab and this has not been previously described in the medical literature.

A case for you to solve.
